The goals of the PATHWAYS program are to 1) develop the student's leadership ability through supporting their efforts to improve their community, 2) facilitate the education and encourage career development of individuals who are highly qualified academically, motivated, and dedicated to improving their country, 3) provide mentoring to establish the future leader in his/her career and to assure the successful implementation of the community project and 4) foster lifelong civic-minded collaborations among youth from different ethnicities. Along with participation in this program is the availability fee assistance to those accepted to the University of Nairobi or Kenyatta University main campus (only for students under the regular/module I programme)
